## Full 90° of Rotation!

Camera can be angled straight out or up, and the orientation in the view screen can be changed with a simple swipe!

## Great for Taking Selfies and Pictures of Your Friends!

Then check your pictures in the on-screen gallery or upload to your computer with the included mini USB.

Perfect for young photographers, this durable smartwatch makes it easy to take photos and record videos on the go. They can also use the touch screen to explore their creativity with fun photo effects, frames and filters. 15 kinds of image effects, 300,000 pixel rotating CMOS camera

The smartwatch has three learning games, a talking hippo and a micro USB cable, which can be used to upload photos and videos as well as recharge the battery.

## Talking Hippo

Children can interact with this charming animated hippo by touching and talking to it. When you touch the hippo, he will respond with a number of different emotions. When you talk to him, he will talk back in a silly voice. The hippo is a super fun virtual buddy you can play with right on your watch!

### The Many Faces of the Talking Hippo:

happy

clapping

surprised

uh-oh!

angry

## Two Vibrant Colors

Blue

Pink

The Smartwatch is also splash proof, making it perfect for everyday play

## **OVERVIEW:**

Your kids will feel all grown up with the EduTab Smart Watch. This new watch does it all. It's a watch, an alarm clock, a camera, a stopwatch, a touch screen toy and a smart learning device – all in one adorable package. Your kids will love the friendly hippopotamus who listens carefully and mimics simple sentences. Designed with a 32GB SD slot so you can load educational media. Featuring a 90-degree high definition camera that's great for taking selfies or front-facing objects. It also takes video and voice recordings. Comes with many pre-installed educational games. Hours of fun on the go. For ages 5 and up.
